## KITCHEN CHOREOGRAPHY

### Company Background

Kitchen Choreography is an interior design and remodel company based in northern Michigan. Led by husband and wife team, Michael and Angela Goodall, Kitchen Choreography has completed over 800 projects securing themselves as one of the leading design firms in the area. This company has a strong desire to always provide clients with unparalleled service from start to finish.

### Project Background

For this particular project, the homeowners decided they wanted a full remodel of their bathroom. They wanted a space that incorporated a crisp, clean, and modern look.

### Products Used

Shower walls - Corian® Solid Surface

*This bathroom embodies a breathtaking, fresh look while showcasing the diversity of the Corian® brand.*

### Strategy/Challenges

One unique challenge that presented itself during this project was incorporating a wainscot paneling in the shower. Typically, this type of application uses either wood or veneer for the wall covering. With this particular placement, the right material needed to be chosen in order to keep the shower clean, clear of mold and residue, and durable for many years. This material also needed to have the right texture and look in order to match the homeowner's vision.

### Result/Solution

It was recommended to complete the shower renovation with Corian® Solid Surface. The shower walls are comprised of field tile and b-board in Cameo White. To complete the entire bathroom remodel, the homeowners selected light hues of white, cream, and gray for paint colors, silver pulls for all cabinet and closet hardware, and modern lights to surround the vanity mirrors.
